

Volunteer Opportunities

- **Greeters** – This volunteer should be outgoing and personable. There should be two areas for this volunteer to be stationed. Volunteers should be at the front of the bridge leading to the exhibit, also between the end of the bridge and the entrance to the exhibit. This volunteer should smile to all visitors that pass and welcome them to Exploration Place, inviting them to view our new *Design, Build, Fly* exhibit.
- **Hands-on activity facilitators** – This volunteer will provide a demonstration on specific activities developed by Exploration Place staff. Training will be provided for all activities with clear instructions on how to perform the activity as well as the supplies needed.
- **CreatorSpace tinkering activities** - This volunteer will provide a demonstration on tinkering-type activity held in our *CreatorSpace*, developed by the Exploration Place staff. Training will be provided for all activities with clear instructions on how to perform the activity. All materials should be located in *CreatorSpace*.
- **Assistance in live science shows** – This volunteer will assist with the set-up and tear down of the live science shows held in our Kemper Studio and/or Grand Hall. The volunteer in this position should be outgoing and personable, much like a magician’s assistant, as they may be called upon to help with the demonstration. An Exploration Place staff member will perform the actual live demonstration.
- **Docent** – This volunteer should have a strong working knowledge of the exhibit and how each piece and part works in the exhibit. The volunteer should be able to show visitors, in a one-on-one situation, the different concepts in the exhibit and why it’s important. This volunteer will also help with the basic museum readiness during their volunteer time in the exhibit.
- **Special Events** – This volunteer would assist with set-up and tear down during *Design, Build, Fly* special events. In addition, some assistance may be needed for activity facilitators.
- **Exhibit Repair** – This volunteer would assist with general exhibit repairs as needed.
